Since 1963 girls and women across the country have been participating in ringette at both recreation and competitive levels. Almost a decade ago, Canlan Ice Sports introduced off-season 3on3 and traditional 5on5 ringette leagues to address the interest of ringette enthusiasts who wanted to continue playing and developing the sport throughout the spring and summer.

3on3 Ringette is a fast paced, high intensity version of the traditional game. 3on3 ringette players improve their overall skills and game strategy by challenging themselves both offensively and defensively. With the thrill of wide open ice, 3on3 games encourage players to think fast and skate hard.

Traditional 5on5 Ringette leagues offer players an organized and competitive setting to stay involved in the game during the off-season. Our ringette leagues are fun and socially motivated, and provide a good balance between participation and competition.

Whatever league you choose, Canlan Ice Sports offers a safe and challenging level of play for girls and women of all age and skill levels.
